Fire Safety Tips

Home Fire Escape Plan

Use the graph to draw your home's floor plan and plot your home fire escape routes.

Tips for creating your home fire escape plan and practicing your 2-minute drill:

- Everyone in your household should know *two* ways to escape from each room in your home.
- Smoke is dangerous. Get low and go!
- Decide where to meet once you get outside:

- Get out and stay out. Never go back inside for people, pets or things.
- If a fire starts, you may have less than *two minutes* to get to safety. So time your fire drills and find out: what's your escape time?

If a fire starts in your home, get out to safety, then dial 911.

You can keep your family safe with 2 simple steps.

Practice your 2-minute drill.

Test your smoke alarms monthly.
